We Can Dance

Hello girls and hello boys are you ready for some fun
Arch and Lottie welcome you the dancing's just begun
Clap your hands with us now clap them way up high
Now you stretch your arms way up right up to the sky

We can dance we can dance we can dance all day
Arch and Lottie our two friends will help you on your way
We can dance we can dance we can dance all night
Learn the moves right here and now your dancing's out of sight

Let us shake our heads like this then nod them up and down
Now can you move your shoulders roll them round and round
Can you move it to your hips wiggle them about
Let's go down to our bottoms stick them in and out

We can dance we can dance we can dance all day
Arch and Lottie our two friends will help you on your way
We can dance we can dance we can dance all night
Learn the moves right here and now your dancing's out of sight

Are you ready for your knees to feel that funky beat
Lift them up now really high then move down to our feet
Stomp them up and down like us you're looking mighty fine
Lotties' ready so is Arch let's sing it one more time

Arch and Lottie our two friends will help you on your way
We can dance we can dance we can dance all night

Yippee Aye Oh

Trotting on my little horse I can wave as I go past
I can trot quite slowly or I can gallop fast

On my horse I can ride lots of different ways
I yippee aye oh and I yippee aye yay
When my horsie neighs
On my horse I can ride lots of different ways
I yippee aye oh and I yippee aye yay
When my horsie neighs
YEEHAH

Galloping around the ring galloping around the track
When it's time to stop just pull the horsie back

On my horse I can ride lots of different ways
I yippee aye oh and I yippee aye yay
When my horsie neighs
On my horse I can ride lots of different ways
I yippee aye oh and I yippee aye yay
When my horsie neighs
YEEHAH

Now I swing my lasso high and I gallop to the side
Gallop back the other way get ready for a ride

On my horse I can ride lots of different ways
I yippee aye oh and I yippee aye yay
When my horsie neighs
On my horse I can ride lots of different ways
I yippee aye oh and I yippee aye yay
When my horsie neighs
YEEHAH

In my saddle straight and tall I can see a jump ahead
I can jump right over I wasn't even scared

On my horse I can ride lots of different ways
I yippee aye oh and I yippee aye yay
When my horsie neighs
On my horse I can ride lots of different ways
I yippee aye oh and I yippee aye yay
When my horsie neighs
YEEHAH

Monster Song

The monster is sleeping so don't make a noise
We have to be very quiet girls and boys
Use your tiptoe tiptoe high stretch right up as you go by
If we tiptoe very quietly we won't make a sound
All our little feet go tiptoe on the ground
Don't wake the monster up SHSH....
Don't wake the monster up GRRRR...Aaahh

The monster's up and he stomp stomp stomps
The monsters up and he clomp clomp clomps
Stamp your feet and make a noise
Let's be rowdy girls and boys
The monster has a growly sound
Stomping his big feet on the ground
All this stomping hurts my head
Put the monster back to bed SHSHSHSH

The monster is sleeping so don't make a noise
We have to be very quiet girls and boys
Use your tiptoe tiptoe high stretch right up as you go by
If we tiptoe very quietly we won't make a sound
All our little feet go tiptoe on the ground
Don't wake the monster up SHSH....
Don't wake the monster up GRRRR...Aaahh

The monster's up and he stomp stomp stomps
The monsters up and he clomp clomp clomps
Stamp your feet and make a noise
Let's be rowdy girls and boys
The monster has a growly sound
Stomping his big feet on the ground
All this stomping hurts my head
Put the monster back to bed SHSHSHSH

Marching Band

Here comes the marching band
Marching down the street
Here comes the marching band
Hear the 4/4 beat YES SIR

Swing your arms knees up keep your head up high
Point your toes back straight smile as you go by
Hup 2 3 4 marching up the hill
ATTENTION!
Now you must stand still

Here comes the marching band
Marching down the street
Here comes the marching band
Hear the 4/4 beat YES SIR

Straight legs out in front play your drum out loud
Stretch your knees as you go by smiling at the crowd
Hup 2 3 4 marching up the hill
ATTENTION!
Now you must stand still

Here comes the marching band
Marching down the street
Here comes the marching band
Hear the 4/4 beat YES SIR

Stretch up on your toes stretch up to the sky
Playing on your trombone with your head held high
Hup 2 3 4 marching up the hill
ATTENTION!
Now you must stand still

Here comes the marching band
Marching down the street
Here comes the marching band
Hear the 4/4 beat YES SIR

March it in a circle bang your cymbals loud
Round and round and round you go hold your head up proud
Hup 2 3 4 marching up the hill
ATTENTION!
Now you must stand still

Here comes the marching band
Marching down the street
Here comes the marching band
Hear the 4/4 beat YES SIR

Little Caterpillar

I'm a little caterpillar and I crawl upon my leaf
A green caterpillar finding food to eat
I roll into my safe cocoon I'm called a chrysalis
Now I will be snug and safe when I'm hiding just like this

Then one day I'll come on out and spread my wings out wide
Look at me I'm beautiful
I am a butterfly

Flying all around the garden swooping left and swooping right
Find a flower have a rest fold your wings up tight

I'm a little caterpillar and I crawl upon my leaf
A green caterpillar finding food to eat
I roll into my safe cocoon I'm called a chrysalis
Now I will be snug and safe when I'm hiding just like this

Then one day I'll come on out and spread my wings out wide
Look at me I'm beautiful
I am a butterfly

Flying all around the garden swooping left and swooping right
Find a flower have a rest fold your wings up tight

Spaghetti

I am called spaghetti I stand so stiff and tall
Drop me in the water watch me gently fall. (Oh no here I go)

Bubble, bubble, bubble, bubble
Blob blob, blob, blob blob
Sizzle sizzle sizzzzzz.... zle
I'm boiling in the pot

The water's very hot now I'm going round and round
Look at me I'm twirling my smile's turned to a frown (Oh no here I go)

Bubble, bubble, bubble, bubble
Blob blob, blob, blob blob
Sizzle sizzle sizzzzzz.... zle
I'm boiling in the pot

I'm jumping up and down I'm moving very fast
I'm getting awfully tired I don't think I can last (Oh no here I go)

Bubble, bubble, bubble, bubble
Blob blob, blob, blob blob
Sizzle sizzle sizzzzzz.... zle
I'm boiling in the pot

Someone's turned the heat off and I'm being lifted out
Now they put me on a plate then they put me in their mouth
(I think I'm going to scream please let this be a dream)

Bubble bubble bubble bubble
Blob blob blob blob blob
Sizzle sizzle sizzzzzz....zle
I'm boiling in the pot

Oh
Bubble bubble bubble bubble
Blob blob blob blob blob
Sizzle sizzle sizzzzzz....zle
I'm boiling in the pot
I'm boiling in the pot

Jump Up and Smile

Jump up and smile you'll soon be feeling much better
You need a friend to see you through all kinds of weather
Jump up and smile, you'll soon be feeling much better
You need a friend to see you through all kinds of weather
You need a friend to see you through all kinds of weather

When you're feeling low when you're feeling down
Wipe away those naughty tears wipe away that frown
Find your smile it's hiding there you know you have friends, who really care....

Jump up and smile you'll soon be feeling much better
You need a friend to see you through all kinds of weather
Jump up and smile, you'll soon be feeling much better
You need a friend to see you through all kinds of weather
You need a friend to see you through all kinds of weather

Don't walk around looking so sad it's not much fun when you're feeling bad
Have a little laugh reach into your heart that makes a really great start....

Jump up and smile you'll soon be feeling much better
You need a friend to see you through all kinds of weather
Jump up and smile, you'll soon be feeling much better
You need a friend to see you through all kinds of weather
You need a friend to see you through all kinds of weather

We all have days when things go wrong but when you're unhappy it won't last long
When you've got a friend who's always around to pick you up when you're feeling down....

Jump up and smile you'll soon be feeling much better
You need a friend to see you through all kinds of weather
Jump up and smile, you'll soon be feeling much better
You need a friend to see you through all kinds of weather
You need a friend to see you through all kinds of weather

I love you you love me
I'll be near when you need me
You're my friend I can make you better looking after you in all kinds of weather.....

Jump up and smile you'll soon be feeling much better
You need a friend to see you through all kinds of weather
Jump up and smile, you'll soon be feeling much better
You need a friend to see you through all kinds of weather
You need a friend to see you through all kinds of weather

Say Goodbye

Now's the time to say goodbye to all our little friends
We've finished all our dancing now the fun has had to end
Let's blow a little kiss now let's give a hug or two
Turn upon our tippy toes say goodbye to you

We have enjoyed your company we've had a lovely day
But now it's time to run along we must be on our way
Let's blow a little kiss now let's give a hug or two
Turn upon our tippy toes say goodbye to you

Good Manners

Make sure you say THANK YOU everyday
These are the magic words to say
And when you want to go past say EXCUSE ME
And when you ask for something make sure you say PLEASE

Cos when you've got good manners you'll be a star
When you've got good manners you'll go far
It's not very hard for you to do
Good manners really work for you

Use your spoon and use your fork
And when you're eating you must not talk
When chewing food keep your mouth shut
And when you cough (cough) cover it up

Cos when you've got good manners you'll be a star
When you've got good manners you'll go far
It's not very hard for you to do
Good manners really work for you

When you burp say PARDON ME
When Mummy's busy wait patiently
When someone's talking don't interrupt
And never EVER EVER slurp in your cup

Cos when you've got good manners you'll be a star
When you've got good manners you'll go far
It's not very hard for you to do
Good manners really work for you

Say THANKS FOR COMING when your friends leave
Don't pick your nose or use your sleeve
Never sniff (sniff) always blow
And say THANKS FOR HAVING ME when you go

Cos when you've got good manners you'll be a star
When you've got good manners you'll go far
It's not very hard for you to do
Good manners really work for you

The Problem Song

ARCHIE: Oh Lottie I have caught a cold
And I've told our Mum and Dad
That my nose my nose is feeling blocked
It makes me feel quite sad

My throat is very sore
And I cough the whole day long
Well I'm having lots of trouble
Trying to sing this song.

LOTTIE: Oh my little brother please don't feel sad
Your cold will soon be gone
If you eat fresh fruit and vegetables
They'll help to make you strong

Don't forget to drink your water
And rest your body too
You'll soon feel much much better
I like it when you do

ARCHIE: You've made me feel much better now
You are my special mate
Sisters are the very best
I think that you are great

You always tell me what to do
And I think you're really clever
Well thank you my big sister
I'll be loving you forever

Crossing The Road

When we cross the road we need an adult too
To hold our hand our hand that's what we do
When we cross the road we need an adult near
When we're sensible and clever we'll have nothing left at all to fear

When you're ready to cross the road
Follow these rules like you've been told
Then you'll be safe and know what to do
This road safety song's for you (and you and you and you)

So you look to the right and you look to the left
Look to the right again before you step
When we cross the road we need to look both ways
When we're sensible and clever we'll be safe and we'll be A.O.K.

When you're ready to cross the road
Follow these rules like you've been told
Then you'll be safe and know what to do
This road safety song's for you (and you and you and you)

Now listen up you guys now what can you hear
Can you hear cars or trucks or anything near
When we cross the road we need to listen well
When we're sensible and clever we'll know all our rules and we'll be swell

When you're ready to cross the road
Follow these rules like you've been told
Then you'll be safe and know what to do
This road safety song's for you (and you and you and you)

So now we're ready to cross and we know the times come
Make sure you walk you walk you walk don't run
When you cross the road walk in a straight line
When we're sensible and clever then we know for sure that we'll be fine

When you're ready to cross the road
Follow these rules like you've been told
Then you'll be safe and know what to do
This road safety song's for you (and you and you and you)
